Math6

We did it !!!

Student Growth in the SBR World...Easy as 1 → 2 → 3

How do I show personal growth towards meeting standards in the math classroom?

1. Complete all tasks and assignments both in and outside of the classroom with best efforts. This is the biggest commitment you can make.
2. Reflect on opportunities for Assessment. Tests, quizzes, and other formative assignments can be corrected. Work to understand your mistakes.

Moving From 1 → 2

- Get help if needed (after school is a great opportunity - not necessary)
 - Have parents sign SBR Cover Sheet and Growth Plan Ticket
 - Hand in corrected Test/Quiz/Assignment with Ticket.
 - Turn in **completed** Study Guide with corrections if one was given
- You Did It!!!**

Moving From 2 → 3

- Get help if needed (after school is a great opportunity - not necessary)
 - Have parents sign SBR Cover Sheet and Growth Plan Ticket
 - Hand in corrected Test/Quiz/Assignment with Ticket.
 - Turn in completed Study Guide with corrections if one was given
 - Complete practice problems as needed.
 - Meet Mr Millard Before or After School to independently, without help, re-do assigned problems to show new mastery of standard concept.
- You Did It!!!**
